

# THE SAFARI FLYING-VISIT 2 DAYS

Thank you for choosing Viva Africa Tours. As per your request, we have provided a schedule for your safari. Please go through the following itinerary, and if you have questions, please do not hesitate to contact us via email or phone.

This 2 day tour to the Tarangire National Park and Ngorongoro Crater in Tanzania offers a multitude of memorable experiences in a short amount of time. The Safari flying visit allows you to explore one of Africa's seven natural wonders – the Ngorongoro Crater and the Tarangire National Park which boasts many species of vegetation and animals. Tarangire is known for their endless plains of savannah and their immense elephant herds. You will be introduced to the infamous big five and marvel at the colossal landscape of the crater in Ngorongoro.

## Itinerary

### Day One: Moshi to Tarangire National Park

We will depart for Tarangire National Park early in the morning. Once we arrive in Tarangire we will begin exploring the enormous termite mounds and the ancient baobab trees. This park is renowned for its diverse bird species and extensive population of elephants. There are regular sightings of ferocious lions, giraffe, warthogs, ostriches, impalas, cheetah, mongoose, buffaloes, and mischievous baboons. After viewing the wildlife in Tarangire we will continue our journey to our next highlight the Ngorongoro Crater. Close to Lake Manyara we put up our tents for the night. Fanaka Camp will provide comprehensive camping facilities. Dinner will be served at the campsite.

### Day Two: Ngorongoro Crater to Moshi

We will have an early start to the day to ensure that we complete the itinerary for the day which includes a magnificent game drive with a picnic lunch in the crater. Animals infrequently migrate in and out of the crater due to its elevated walls. This means you are capable of spotting every member of the big five in one day. The big five comprises of buffalo, elephants, rhinos, lions and leopards. Some of the other wildlife that you can expect to see includes zebras, hippo, wildebeest and hyenas. The craters also feature an extensive bird population including geese, storks and vultures. You will be graced by the lovely flamingos on the Soda Lake. Our guides are highly skilled and will impress you with their ability to track down animals. This is a skill that a book cannot teach you and that a selected few can perform.
